PATIENT ASSESSMENT/ELIGIBILITY REVIEW

WHY CHOOSE MOBILE PRIMARY CARE?

Mobile care closes the gap for homebound patients, ensuring they receive quality healthcare that isn't possible within the four walls of a traditional office. We offer faster appointments and a more complete picture of your health needs.

BENEFITS OF MOBILE CARE

- **REDUCES HOSPITALIZATIONS**
Proactively manages conditions to prevent unnecessary emergency room visits and long hospital stays.
- **FOCUSES ON ACCESS**
Ensures quality healthcare for homebound patients who would otherwise face barriers to care.
- **PRIORITIZES COMMUNICATION**
We engage directly with patients, families, and facility staff to ensure care plans are aligned and understood.

SERVING ALL CARE SETTINGS

Whether you are home-bound, bed-bound, or simply incapable of easily going to a doctor's office, 101 Mobile solves the problem. We specialize in servicing the following facilities:

- **AT YOUR HOME**
We provide high-quality Medical Care Providers right to your home, literally wherever you are.
- **ASSISTED LIVING FACILITIES**
We specialize in servicing our patients as they move from independent residence to an assisted living facility.
- **BOARD & CARE FACILITIES**
Our top priority is treating your loved ones by listening and addressing their concerns.
- **HOME HEALTH CARE FACILITIES**
We work with patients and families to choose the best provider that meets the needs of the care plan our team already has in place.
- **SKILLED NURSING FACILITIES**
We collaborate directly with facility staff to provide consistent, high-quality primary medical care on-site.
